

Moree Race Club Conditions of Entry for Irritek Summer Races 19/12/2020

1. Moree Race Club has implemented safety measures to mitigate the risk of COVID-19 and to ensure the safety of patrons, staff and the wider community.
2. Moree Race Club reserves the right to remove any patron not complying with COVID-19 safety measures.
3. The safety measures are intended to minimise the risk of contracting Covid-19, but this risk cannot be completely eradicated. Visitors enter Moree Race Club at their own risk.
- 4. Patrons are not permitted to attend Moree Race Club events if they:**
 - Exhibit any flu-like symptoms including but not limited to:
 - Runny nose
 - Persistent cough
 - Sore throat
 - Shortness of breath
 - Fever
 - Have been in close contact with a person that has tested positive for COVID-19
 - Are awaiting the results of a COVID-19 test
 - **Are from the Sydney Northern Beaches Local Government Area**
 - **Have attended any of the venues listed in the Racing NSW Update on the Northern Beaches Cluster dated 18/12/20 and highlighted and attached to these conditions**
 - Have returned from international travel and have failed to comply with the government mandated 14 days of hotel quarantine
5. All patrons must provide their contact details via QR code scanning at the entrance to Moree Race Club for contact tracing purposes. Please note that this information will be kept confidential and will be disposed of after 28 days.
6. Should a patron or staff member become unwell, they must immediately notify Moree Race Club staff and then immediately leave the racecourse premises.
7. Should a patron or staff member become unwell, they must immediately notify Moree Race Club staff and then immediately leave the racecourse premises.
8. All patrons are to observe 1.5 meters of physical distancing and comply with all NSW Health requirements.
9. All patrons are to undertake the following measures to ensure good personal hygiene:
 - Use hand sanitiser provided upon entry and exit and at regular intervals throughout the event
 - Practice good cough and sneeze etiquette
 - Wash hands regularly using the soap provided
 - Avoid touching your face
